Details

We make our custom dovetail drawers using only the finest solid maple wood, from the most highly regarded lumber mills. Using only premium-quality wood ensures that our dovetail drawers are of superior quality. We carefully assemble your drawer, ensuring a solid and seamless dovetail joint. As for finishes, we apply two coats of protective lacquer to each drawer, with a sanding in between applications.

“Our consistent focus on quality keeps our customers coming back to us year after year.”
